Bei Mehrfachbestellung werden die Versandkosten anteilig erstattet. - Video pros of all stripes, from broadcast professionals to marketing specialists and Web designers who need to produce occasional video segments, will welcome the dramatically accelerated 2D and 3D rendering afforded by the brand-new After Effects 7.0. Here to help them dive right into Adobe's motion-graphics and effects powerhouse is Adobe After Effects 7.0 Classroom in a Book. The team at Adobe has revised the best-selling previous edition to cover all that's new in this upgrade: motion tracker, powerful animation and keyframing controls, Timewarp, network rendering, expert effects, nondestructive vector painting, and more. The one thing that hasn't changed here is the popular project-based approach. Designed around a single complex project that's broken down into manageable lessons, this book-and-DVD package mimics a real-world workflow, but one that readers tackle at their own pace! The DVD contains all the lesson files and footage readers need to complete the lessons. 456 pp. Englisch.
